

CHEF BRIGADE

SOUS-VIDE: LOW & SLOW is a method of cooking in which food is sealed in airtight plastic bags then placed in a temperature-controlled steam environment for long periods of time. The intent is to cook the item evenly, ensuring that the inside is properly cooked without overcooking the outside, and retain moisture. All our items are big on taste and texture.

Confit is one of the oldest ways to preserve food. In modern cuisine it means long slow cooking in oil or fat at low temperatures. We cook items in two types of confit for flavour: one is duck fat and the other is olive oil.
